THE PRIME MINISTER

11 March 1988

Dear Dr. Pereira Gray,

As you will know, we are now actively engaged on a major review of the National Health Service. The work is being co-ordinated by a small group of Ministers, which I am chairing.

But I am also keen to hear the views of those who have first-hand experience of working in the hospital and primary care services. I am, therefore, arranging a private and informal seminar at Chequers on Sunday 27 March, to which I am inviting a number of consultants and general practitioners. I hope very much that you will be able to come.

Yours sincerely

Margaret Thatcher

I am keen that the discussions should be wide-ranging and not be constrained to a rigid structure. But I think it would be most helpful if you would start the ball rolling by opening the discussion with a summary of some key issues that we should address. I should be most grateful if you would take that on.

Yours sincerely

Dear Dr. Crawley,

I enclose a formal invitation from the Prime Minister to a Seminar on the National Health Service. Perhaps I could stress that the Prime Minister wishes this to be a strictly private occasion, and I should therefore be grateful if you would avoid any publicity being given to the occasion.

The arrangements for the day are that coffee will be available from 1030 onwards and the discussion will start at 1100, carry on over lunch and conclude in the early afternoon.

Please let the Invitations Secretary here at Downing Street know if you will be able to attend. She will then send you an admittance card to Chequers and a map.

Yours sincerely,
Paul Gray

Dear Geoffrey,

I attach a copy of a letter which the Prime Minister has sent to the various people who have been invited to attend the Seminar on the National Health Service at Chequers on Sunday 27 March.

Your Secretary of State, the Minister for Health, Richard Wilson, John O'Sullivan and myself will all be present.

I am copying this letter to Miss Jenny Harper (Minister of State's office), Richard Wilson (Cabinet Office) and John O'Sullivan (No. 10 Policy Unit).
